

Feel Fresh™

Bidet N' Wash  Hygiene System

www.hometechind.com

Feel Fresh bidets by Hometech are designed to introduce you to a new world of personal comfort and Family Hygiene. Using the very latest in technology, **Feel Fresh** bidets are easy to install and include a wide range of convenient features, each designed to provide a healthier and cleaner body for all members of the family including those physically challenged

Used properly and regularly as a hygienic irrigator, **Feel Fresh** bidets can help in the prevention and treatment of various health related ailments. They are excellent for use in the relief of the inflammatory symptoms of hemorrhoids, they also help with relieving the discomfort associated with diarrhea, and are recommended for cleansing during and after menstruation. Used daily, they will provide the user with a fresh, clean and healthy feeling throughout the day.

Engineered for easy installation, **Feel Fresh** bidets include a convenient and attractive side panel with easy-to-use push button controls. Separate spray nozzles serve the special needs of men and women and both water pressure and water temperature can be adjusted to individual needs. As an added safety factor, the unit must be in use before the retractable spray nozzles can be activated for use. And just in case the bathroom is cold in the morning, the seat is heated.

*Isn't it nice to know you can now
Feel Fresh all day long!*
